## ST-Line. The inside story.

The Fiesta ST-Line interior echoes the car's distinctively stylish image. A silver gearshift insert, stainless steel foot pedals and the unique ST-Line leather-trimmed steering wheel, all set ST-Line apart from other Fiesta series.

## ST-Line. Track styling.

The New ST-Line delivers the stylish practicality of the Ford Fiesta, with all the eye-catching aesthetics of a performance-line vehicle. Rear spoiler, bodystyling kit and meshed front grilles. Rock metallic alloy wheels, sports suspension and ST-Line exterior branding – all contribute to the car's unique blend of usability and head-turning good looks.

# FORD FIESTA ST-LINE AND ST-LINE RED & BLACK EDITIONS FACTS AND FIGURES

The fuel economy figures quoted in the table below are achieved by following strict EU governed test procedures and are specifically designed to enable customers to compare vehicles from all manufacturers on a like-for-like basis. Fuel consumption is directly affected by the length of the journey; number of passengers and amount of luggage carried; individual driving style; road and traffic conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle such as the addition of a roof rack. Your fuel economy will vary based on these and other factors and, for these reasons, many drivers may not achieve the EU fuel economy figures (below) in day-to-day driving, although the vehicle is technically capable of doing so.

\*In 4th gear. <sup>90%</sup>Ford test figures. <sup>90%</sup>The declared Fuel/Energy Consumptions, CO<sub>2</sub> emissions and electric range are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO<sub>2</sub> emissions are specified for a vehicle variant and not for a single car. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO<sub>2</sub> emissions and electric range. CO<sub>2</sub> is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO<sub>2</sub> emissions which contains data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk/>. **Note** BP Ultimate, a range of advanced performance fuels, the perfect partner to meet the most demanding needs of Ford's class-leading technology. BP Ultimate can boost power and acceleration, lower exhaust emissions and improve fuel economy, compared with ordinary fuels.
