The Vehicle Excise Duty (VED) charged on new cars is based on their engine's CO2 emissions\* (expressed in grams per kilometre (g/km)). All CO2 emissions figures in g/km are from officially approved tests in accordance with European Regulations (EC) 715/2007 and (EC) 2017/1151 as last amended.

The chart above shows the Bands and the VED which will be levied (for vehicles registered from [1st April 2025](#) onwards). If a car's list price is over £40,000 (including VAT and factory fitted options) at first registration, the customer will pay an additional VED charge (currently £425) for five years after the end of the first registration (in addition to the standard VED charge per year, currently £195).
